# INTRODUCTION

**RALEIGH INTERNATIONAL EXISTS TO SUPPORT AND EMPOWER YOUNG PEOPLE TO MAKE MEANINGFUL CHANGE, NOT ONLY FOR THEMSELVES, BUT FOR THE WORLD THEY LIVE IN.**

We are proud that in 2024 we welcomed over 300 young people onto Raleigh International Expedition programmes in South Africa and Costa Rica. They took action to support meaningful sustainable development and conservation projects whilst building key skills in leadership and active citizenship.

Now more than ever, the need for opportunities like Raleigh Expedition is undeniable. In a post-COVID and increasingly digital world, we know young people face many challenges. Access to jobs and skill-building opportunities provide barriers to entering the job market, while a rise in issues around youth mental wellbeing and anxiety mean it is vital for young people to be supported to grow and thrive.

Our programmes offer young people the chance to disconnect from technology and re-engage meaningfully with themselves, their peers and with communities. They engage in activities which enhance their skills and experiences to positively shape their future, and crucially engages them in development

solutions which nurture them as society-serving active citizens.

Our work alongside partner communities drives real, sustainable change in the countries where we operate, creating positive lasting impact for people and our natural world.

2024 marked our 40th year since Operation Raleigh began in 1984. In this milestone year, we are proud to have continued our legacy of standing for youth leadership and creating sustainable impact, as we have done since our inception. We remain wholly committed to this and the Raleigh spirit which lives through our global community.

**THIS IMPACT REPORT SHINES A LIGHT ON OUR ACHIEVEMENTS ACROSS THE YEAR AND THE POWERFUL STORIES OF THOSE WHO WERE PART OF THE RALEIGH INTERNATIONAL JOURNEY IN 2024.**

# OUR VENTURERS

The impact of Raleigh International on our  
participants in 2024

# OUR VENTURERS IN 2024

Raleigh International works with young people aged 17-24 who join as Venturers on the Raleigh Expedition programme. Venturers come to Raleigh with a range of different backgrounds, life stages and motivations.

IN 2024, RALEIGH INTERNATIONAL WELCOMED:

# 359

TOTAL VENTURERS

# 240

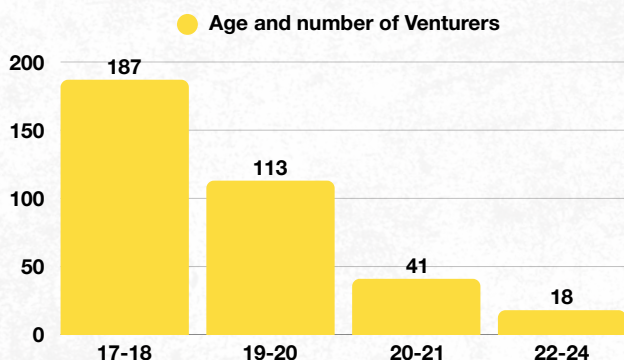

IN COSTA RICA

# 119

IN SOUTH AFRICA

Of our Venturers who joined a Raleigh Expedition in 2024, a significant number were in a post-school and pre-university life stage, joining a Raleigh Expedition as part of their gap year.

Many of our Venturers reported being motivated to join a Raleigh Expedition to help them stand out from the crowd and enhance their future career or study prospects.

## VENTURERS FROM ALL OVER THE WORLD

As an international programme we attract young participants from across the globe, as well as young people from our Expedition countries. Of our 2024 Venturers:

**49% were from the UK, 12% from South Africa, 10% from The Netherlands, 7% from Costa Rica.**

**22% were from other countries, including: USA, Belgium, Australia, Canada, Hong Kong, Germany, Malaysia, Switzerland, Poland, France, Italy and Nicaragua.**

# OUR VENTURERS: SKILLS DEVELOPMENT

**The Raleigh Expedition Programme is designed with leadership theory and skills development at its heart. Through the programme structure and activity opportunities we provide, Venturers engage in experiential learning that supports skills-building and professional development.**

On Expedition, Raleigh Venturers live and work in remote and complex environments which are different from their norm. From interacting with local communities and partner organisations during their projects, to negotiating complicated landscapes on an adventure challenge, Venturers are exposed to new experiences which drives essential learning.

100% of our Venturers in 2024 reported that they felt they had improved in at least four or more of the following competencies through their Expedition:

Leadership; communication; teamwork; problem-solving; motivating; decision-making; adopting a healthier lifestyle; listening; self-awareness; diplomacy; and organising.

**98%**

**Rated Raleigh Expedition positively for developing problem-solving skills**

**86%**

**Rated Raleigh Expedition positively for developing organising and motivational skills**

**82%**

**Rated Raleigh Expedition positively for supporting them with self-awareness**

**94%**

**Rated Raleigh Expedition positively for leadership development**

**97%**

**Rated Raleigh Expedition positively for communication skills development**

**98%**

**Rated Raleigh Expedition positively for building awareness of strengths and weaknesses**

## **OUR VENTURERS: PERSONAL DEVELOPMENT**

Venturers join a Raleigh Expedition during a pivotal life stage in which they are entering or progressing through young adulthood, when self-confidence, identity and a sense of purpose is built. The programme nurtures the personal development of Venturers so they are happier, more resilient and fulfilled.

On Expedition our Venturers receive 24/7 support from our country teams to ensure that they gain a sense of personal achievement and enjoyment from completing their Expedition.

On average Venturers  
rated their overall  
Expedition experience:

**9/10**

### **OF OUR VENTURERS IN 2024**

**81%**

Would describe Raleigh Expedition as a “life-changing programme”

**87%**

Describe their Raleigh Expedition as one of the best things they have ever done

**80%**

Felt their project activities contributed to making a lasting change

**87%**

Felt they achieved what they wanted to achieve on their Raleigh Expedition

**95%**

Would recommend a Raleigh Expedition to a friend or colleague

# **OUR VENTURERS:** **WELLBEING** **DEVELOPMENT**

With issues around youth mental health on the rise, Raleigh Expedition strives to provide an environment for our Venturers to positively nurture their mental health and well-being, as well as learn tools in resilience against modern challenges. This is why Raleigh Expedition is a phone and alcohol-free programme.

Our digital detox approach strongly supports and enables Venturers to forgo their mobile phones for up to 19-days at a time, with phone access permitted for short 3-day intervals during Phase Changeovers. This encourages Venturers to engage fully in the Expedition with complete presence of mind, prioritising healthy habits and appreciating the benefits of screen-free time.

Meanwhile, alcohol consumption is not permitted at any stage of the Expedition experience, supporting personal health and safety.

**85%**

Agreed or strongly agreed that they enjoyed not having their phones on them

**65%**

Agreed that not having their phone became easier over time

**65%**

Agreed that they are going to continue to take space away from their phones

**62%**

AGREED THAT THEY FELT BEING WITHOUT THEIR PHONE IMPROVED THEIR MENTAL HEALTH

**83%**

Liked that their Raleigh Expedition was a fully dry programme

**60%**

Agreed they did not miss alcohol during their Expedition

# SES RALEIGH EXPLORER AWARD

**In 2024, seven young people from lower socio-economic backgrounds were supported to join a Raleigh Expedition through unique bursary funding, provided in partnership with the Scientific Exploration Society and the Raleigh Alumni community.**

The SES Raleigh Explorer Award provided fully-funded places on a Raleigh Expedition in South Africa and Costa Rica to young people who met a number of set criterias, most significantly including:

- Being from a home with an annual mean household income of less than £42,000.
- Showing a commitment to personal and professional growth through a Raleigh Expedition.

The SES Raleigh Explorer Award not only provides funding to accomodate a 10-week Expedition, but also covers flights and travel-related expenses for Award Recipients.

**The SES Explorer Award will fund 18 young people in total to join Expedition from 2024-26**

The seven young recipients of the SES Raleigh Explorer Award in 2024 came from a range of backgrounds. They included: care-leavers, young care-givers, community volunteers and young expats.

Each Award Recipient demonstrated substantial passion to learn and develop personally through a Raleigh Expedition, and were thoroughly assessed to determine that a Raleigh Expedition programme would not have been attainable for them without bursary support.

In November 2024, Award Recipients were celebrated at the SES Explorer Awards Ceremony, attended by Raleigh Founder John Blashford-Snell, where they were congratulated for their achievements.

# SES RALEIGH EXPLORER AWARD: AWARD RECIPIENTS

“

## MELIKA

**BURSARY AWARD RECIPIENT  
IN COSTA RICA**

There's been some challenges along the way, but honestly Melika on day one and Melika on day twelve is a completely different person. I'm so proud of the woman I've become [on this Expedition].

“

## AUSTIN

**BURSARY AWARD RECIPIENT  
IN SOUTH AFRICA**

I learned the importance of working for communities and the environment around us.

I'd describe myself as a person eager to learn and experience new things, but also sometimes nervous about new social experiences. But being here, I've found I have a voice within a group. I now know so much about different cultures and ways of life. It's incredible.

“

## JOSH

**BURSARY AWARD RECIPIENT  
IN SOUTH AFRICA**

Growing up, life at home wasn't easy. At the age of 17, I ended up going into care. I spent about three years moving from home to home.

I think my biggest highlight is experiencing the culture and getting to know the people and lifestyle. It's the complete opposite to life back home.

I have a four page list of things I've learnt about myself from Raleigh! I learnt that I can live without the luxuries of life a lot easier than I thought.

I've learnt I'm capable of so much more than I thought I was. I always have a lot of negative thoughts and doubt about what I can do, but that's just been blown away while here on Expedition. I struggle with my mental health, but being out here, I haven't thought about any of that. I've been lighter from depression, anxiety, worry. I feel like I'm free again.

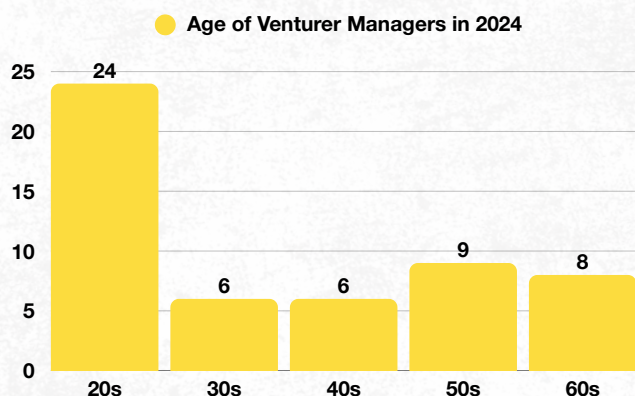

# OUR VENTURER MANAGERS IN 2024

Venturer Managers (VMs) aged 25+ provide pastoral and operational support on our Expeditions.

IN 2024, RALEIGH INTERNATIONAL WELCOMED:

**53** TOTAL VENTURERS MANAGERS  
**37** IN COSTA RICA  
**16** IN SOUTH AFRICA

Raleigh VMs come from a wide-spectrum of career levels, bringing with them a variety of skillsets and experiences to Raleigh Expeditions. As early to mid-level managers, career-breakers and retirees, VMs provide unique support to Venturers and staff to ensure the smooth running of our Expeditions.

“

**SAM**

VENTURER MANAGER  
IN COSTA RICA

In Costa Rica I helped lead the team to rebuild two school classrooms and one new one. This was important as the classrooms were breaking and starting to become dangerous, thus we provided a new safe environment for the students to learn in.

When the projects came to an end, members of the community came to the school see the opening of the classroom and to celebrate with games and food.

Raleigh has given me confidence within myself that I don't know where I would have gotten otherwise. Coming through and being pleased with the job I did has given me the courage to push myself to do more things that seem daunting.

# OUR PROJECTS

The impact made on Raleigh International  
community and environment projects in 2024

# SOUTH AFRICA: COMMUNITY PROJECTS

In 2024 the Raleigh South Africa community project took place in the community of Seville B, based just outside the border of Kruger National Park in Mpumalanga District. Here sustained underdevelopment and unemployment pose key challenges for local people.

In the second year of partnership, Raleigh International worked with project partner Nourish to deliver support to the Seville B community. Through outreach projects and the creation of an Eco Village, our work aims to sustainably increase resilience and reduce poverty.

Over three Expedition Cycles, 119 Venturers have collectively spent over 550 project hours in Seville B, supporting the construction of educational facilities, vegetable gardens as well as working and engaging with local students at the Nourish Eco Village.

Raleigh Venturers in 2024 supported the construction or refurbishment of:

9

EDUCATIONAL  
PLAYGROUNDS

2

COMMUNITY  
KITCHENS

2

FOOTBALL  
PITCHES

2

NETBALL  
PITCHES

6

VEGETABLE  
GARDENS CREATED  
OR HARVESTED

Vegetable gardens support feeding schemes at Nourish's Eco Village as well as at local primary schools in Seville B.

# **SOUTH AFRICA:** **COMMUNITY** **PROJECTS**

Raleigh Venturers also supported the Green Kidz Club, an after school club in the local community. Local school children attend the club where they receive a meal. Venturers engaged the club by providing educational support, including with literacy, sports, arts and crafts and environmental education.

Venturers also conducted work maintaining and decorating the Green Kidz classroom and library, as well as supporting with cooking, serving meals and running lessons.

**RALEIGH VENTURERS HAVE  
SPENT 122 HRS WITH THE  
GREEN KIDZ CLUB,  
BENEFITING:**

**OVER 200 STUDENTS**

## **EMOTION**

**DONOR RELATIONS  
MANAGER FOR NOURISH**

The people of Seville B are full of love. Raleigh's first project with Nourish was the building of a new playground. The reason we needed the playground was because the local schools close their gates at 2 or 3pm, leaving children nowhere to play. We made this first playground as somewhere for the students to go and play.

The Venturers then helped build the vegetable gardens. These help the grannies to harvest foods to cook for the kids. Sometimes the kids take the harvested foods home to share with their families.

Thank you to everyone that is and has been part of this project. Everything that has been made is really amazing.

# SOUTH AFRICA: ENVIRONMENT PROJECTS

**Raleigh South Africa Environment Projects took place across two different sites in the Mpumalanga District; The Sawong Reserve and at the Cape Vulture Conservancy.**

Across both sites, poor land management practices have resulted in the limited natural migration of wildlife, resulting in widespread habitat degradation. Human-caused obstructions, such as fencing and snares, negatively impact wildlife, while uncontrolled vegetation threatens the growth of biodiversity. Through their projects, Venturers engaged in numerous activities to support ecosystem restoration in the region.

## **SAWONG RESERVE**

Covering an area of around 1300 hectares, Sawong is home to Big Five wildlife and is privately owned by the South African Defence Force. Raleigh is providing on the ground support to restore the ecosystem back to health.

## **CAPE VULTURE CONSERVANCY**

The Cape Vulture Conservancy hosts the third largest colony of breeding Cape Vultures and a plethora of wildlife. Due to cattle farming, land within the Conservancy has degraded significantly, while excessive poaching and poor migration access has led to a decline of natural wildlife populations.

**Raleigh Venturers in 2024 supported a number of conservation activities:**

**2,114  
METRES**

**OF FIRE  
BREAK**

Creating barriers in vegetation to provide natural protection against the spread of bushfires.

**425  
METRES**

**OF EROSION  
CONTROL**

Creation of a physical barrier which protects local landscapes from the effects of soil erosion.

**6,763  
METRES**

**OF ROAD  
CLEARING**

By removing road obstructions, access for rangers is improved to aid monitoring and anti poaching efforts.

**42,853  
SQ METRES**

**BUSH CLEARING &  
ENCROACHMENT**

The clearing of obstructive vegetation and bush which pose risks to local native vegetation.

# **SOUTH AFRICA:** **ENVIRONMENT** **PROJECTS**

**ESTRELLA**

**RALEIGH VENTURER  
IN SOUTH AFRICA**

**We did many different jobs that contributed to conservation. We removed old fences, telephone wires and collected litter. Removing invasive plants was hard work but interesting. I learned more about the importance of removing certain species. We also gathered data on endangered trees. Seeing how much work we had done during our time was rewarding, as collecting all this research and our work will protect and preserve the environment.**

**I developed a much better understanding of biodiversity and nature. It made me realise the huge impact humans have on the environment and how our protection and care make a difference, whether big or small.**

Invasive plant species negatively impact the structural diversity of local ecosystems in Kruger, affecting habitats, population and genetic structure. Tackling invasive plants permits native flora to prosper.

Meanwhile there was an increase in snares in Kruger from 2022-23, with high rates of wildlife injuries due to snaring and poachers causing concern among environmentalists.

**Raleigh Venturers contributed to:**

**64,900 SQ METERS  
OF INVASIVE PLANT SPECIES REMOVAL**

**44 SNARES  
REMOVED FROM WILDLIFE AREAS**

# **COSTA RICA:** **COMMUNITY** **PROJECTS**

**In 2024 the Raleigh Costa Rica community projects took place in two regions; the Alto Chirripo Indigenous Territory and the Talamanca Bribri Indigenous Territory. Across the two regions, Raleigh Venturers spent over 1000 hours on project activities benefitting 9 schools.**

In these indigenous territories, significant educational and infrastructural challenges threaten access to education for young people growing up in these regions. Through our community projects in Costa Rica, Venturers conduct construction activities aiming to build and improve educational facilities and public services.

Improvements in school infrastructure through these projects indirectly benefit hundreds of students by creating more space for personalised classes and expanding the school's capacity to accommodate larger groups. With better facilities, schools can hire additional teachers, offer more subjects and improve the quality of education. Crucially, these upgrades lead to increased investment from the Ministry of Education in teaching materials, equipment, and resources, further enriching the learning environment for all students.

**620**

**STUDENTS DIRECTLY OR INDIRECTLY BENEFITTED FROM IMPROVED SCHOOL INFRASTRUCTURES**

**Raleigh Venturers in 2024 contributed to:**

**16** **SIGNIFICANT INFRASTRUCTURE BUILDS**

Infrastructure builds include key improvements to classrooms, dining rooms and student shelters. This enhances school capacity and overall functionality.

**21** **BUILDS OF BIODEGRADABLE STRUCTURES**

These include recycling bins, football goal nets, frames, benches and dining tables. These are designed to promote sustainability while enhancing the school's infrastructure.

# COSTA RICA: COMMUNITY PROJECTS

6

NEW HALLWAYS  
CONSTRUCTED

Wooden hallways with corrugated laminate roofs provide sheltered spaces that protect students from rains during the winter season, ensuring they stay dry and healthy.

17

ACTION DAYS  
DELIVERED

38

SIGNS AND  
MURALS CREATED

On top of crucial physical construction activities, Venturers ran 17 action days in our project communities. These action days engaged local people in activities and discussions centered on health, hygiene, and sustainability. Topics such as the importance of handwashing, maintaining clean bathrooms and recycling are highlighted, encouraging collective responsibility for a healthier environment.

“

**ADRIAN**

SCHOOL GUIDANCE  
COUNSELLOR

In this community they are so open to receive Raleigh Venturers. This is not common in indigenous culture. So the cultural exchange we are making here is so nice. Having people from Belgium, the Netherlands, the UK is adding to our culture and we appreciate this exchange.

With the Venturers there are so many positive things they have done. I am so grateful from the bottom of my heart for every single detail they did here. I hope this Raleigh project won't finish and will continue.

# **COSTA RICA:** **ENVIRONMENT** **PROJECTS**

In 2024 the Raleigh Costa Rica environmental projects took place in three areas; La Amistad Caribe Conservation Area, Corcovado National Park and in the Conservation Area of Guanacaste. Here Raleigh Venturers spent over 1,100 hours on environmental project activities supporting nature and biodiversity conservation.

With over 5% of the world's biodiversity, Costa Rica is environmentally rich but also has areas which are biologically vulnerable. Raleigh Venturers have conducted vital project work to support local organisations and park rangers who are leading conservation efforts.

Raleigh Venturers in 2024 contributed to:

**6,650 METRES**  
OF TRAIL MAINTENANCE

Improving park access for rangers and supporting responsible tourism, contributing to the economic income of protected areas.

**3,890** TREES PLANTED

Planting native trees, such as mangroves and coconut palms, help create a natural barrier against coastal erosion.

**121 HOURS**  
SPENT ON BEACH CLEANING

Removing plastics and other harmful waste to protect both marine and terrestrial fauna.

# COSTA RICA: ENVIRONMENT PROJECTS

“

**PAM**

**RALEIGH VENTURER  
IN COSTA RICA**

My favourite part of my environmental project on the farm is that I've learnt lots of new things. Like how to live without using loads of energy and supplies. I have realised that you can grow a lot of things on trees here and live a whole different lifestyle in a way that I didn't know you could before. I feel like it's been really inspirational and all the people I've met here are really lovely.

**6**

**VEGETABLE  
GARDENS  
CULTIVATED**

Supporting the harvesting or cultivation of organic community gardens on farms, contributing to the local economy.

**9**

**BIODEGRADABLE  
STRUCTURES  
BUILT**

Structures, such as bins, built with materials gathered during recycling campaigns, promoting further sustainability.

**24**

**CAMERA TRAPS  
SET UP**

Camera traps are essential for monitoring species and support environmentalists in developing conservation strategies based on accurate data.

In addition to physical conservation activities, Raleigh Venturers engaged in 65 environmental sessions, in which they participated in activities learning about environmental processes and biodiversity. These talks are key for raising awareness about the importance of conservation efforts.

A photograph of four people (two men and two women) sitting on a colorful, graffiti-covered playground structure. They are all wearing dark blue t-shirts with the word "Raleigh" printed on them. The structure has various painted designs, including flowers, stars, and a giraffe. The background is a clear blue sky. A semi-transparent dark grey banner is overlaid at the bottom of the image, containing the title and subtitle text.

# 40 YEARS OF RALEIGH

The Raleigh International Alumni Community  
engaged with us once again to mark 40 years  
since the inception of Operation Raleigh in 1984

# ALUMNI ENGAGEMENT IN 2024

Since 1984, over 57,000 young people have joined a Raleigh International programme in over 50 countries around the world, making up our global Alumni community. In 2024 we continued to engage with our network as an active part of our mission.

## Our Raleigh Reconnect Campaign

In October 2024, Raleigh International launched a wide-spread alumni engagement campaign to mark our 40th anniversary. 'Raleigh Reconnect' was launched with the goal to grow our digital Alumni network of previous Raleigh Venturers, so we could better engage and nurture our global community.

As part of this campaign, we collated a list detailing over 600 programmes from Raleigh's history, providing Alumni the opportunity to identify and select their Expedition. This not only supports Raleigh to reconnect with our Alumni, but also helps us to reconnect Alumni with other each other and facilitate reunions.

As part of this campaign, we launched a celebratory '40 Years of Raleigh' video to share our thanks to our Alumni community who have helped make Raleigh what it is today.

As part of Raleigh Reconnect, we welcomed over 450 Alumni back into our digital network. The campaign is on going and will continue through 2025.

## Alumni Engagement

We carried out a number of initiatives which involved Alumni in 2024.

We worked with over 30 alumni on outreach activities, including their participation in online and in-person events and career fairs, as well as their contributions to digital communications such as blogs, case studies, and social media content.

Alumni engagement has supported awareness raising about Raleigh Expedition, expanding the impact of the Raleigh brand.

## Raleigh National Societies

Raleigh National Societies around the world continued to run independent initiatives promoting active citizenship and community service in 2024. These included in:

The United Kingdom, Bermuda, Costa Rica, Kuala Lumpur and Sabah.

# OTHER HIGHLIGHTS FROM 2024

## Raleigh UK Expedition

In July 2024, to mark our 40th year Raleigh International launched a special UK Expedition for 13-16 year olds. Taking place in the South West of England, the Expedition took 11 young people on a 11-day programme. Returning to our sailing roots, this involved a 6-day sailing excursion aboard the Prolific and an environmental project - set up alongside project partner Till The Coast Is Clear - focused on the conservation of Britain's beaches and coastline.

Through the Expedition the young participants took part in fun basic survival activities, learning skills in resilience, confidence and team-building along the way.

## Raleigh's Founder visits projects

In October 2024, Operation Raleigh Founder John Blashford-Snell visited our Costa Rica Expedition. It was wonderful to introduce him to our Venturers and celebrate their Expedition achievements, especially in our 40<sup>th</sup> anniversary year.

## Raleigh re-launches Borneo Expedition

In August 2024 we announced the opening of applications for our new Raleigh Borneo Expedition. The new Expedition represents a return to Borneo seven years after we closed operations there in 2017 after 30 years. The first Borneo Expedition began in January 2025.

# CONCLUSION

Looking forward to an exciting year ahead

# CLOSING MESSAGE

## THANK YOU FOR BEING PART OF RALEIGH INTERNATIONAL'S JOURNEY IN 2024. WE COULD NOT HAVE DONE IT WITHOUT OUR VENTURERS, ALUMNI AND DEDICATED SUPPORTERS.

As we reflect on 2024, I feel immense pride in all that Raleigh International has achieved in these last 12 months. This was our first full year of operation since relaunching in 2023 - a year that demanded resilience, determination, and an unwavering belief in our mission. Rebuilding Raleigh in line with its legacy and reputation has been no small feat, and I want to extend my deepest gratitude to the incredible Raleigh team. Their tireless work, both behind the scenes and on the ground, has ensured that every young person who embarks on an Expedition is supported, challenged, and inspired.

Our work would not have been possible this year without support from our Alumni, who continue to show steadfast commitment to the Raleigh spirit. Our Alumni community continue to feed into our work and open doors for Raleigh International to grow in different ways. As partners and ambassadors, our Alumni community remains vitally important to us and we cherish it dearly. We thank all our Alumni wholeheartedly for their contribution to Raleigh.

Finally, of course we thank our Venturers and Venturer Managers. Over 350 young people chose to make an impact on a Raleigh Expedition in 2024. Expedition is not easy, but every Venturer who joined us this year rose to the challenge, showing determination, grit and resilience in order to make a positive difference. They have all been instrumental to Raleigh's impact this year.

Looking forward to 2025, we are excited to welcome more Venturers from around the world on Expeditions in South Africa, Costa Rica and our newest Expedition destination - Borneo. As an organisation we remain dedicated to growing our impact across the globe, so that we continue to create a better world for our young people and the communities we work in.

We welcome you to continue joining us on our journey in 2025, so we can continue to take Raleigh from strength to strength, together.

*L.C. Fernandez*
