CURRENCY

South African Rand (ZAR)

CLIMATE

Region dependent but mostly Subtropical

TIME ZONE

+2 GMT

WHY DO WE WORK IN SOUTH AFRICA?

Deforestation and habitat loss

Despite being one of the most developed countries in Africa there are still large percentage of people living below the poverty line. It's ranked as one of the most biodiverse areas in the world but that is constantly under threat.

Our Expeditions focus on working together on projects which protect and restore the delicate balance of eco-systems and help communities struggling with access to education and sanitation.

Social and economic issues

Our community-led project is focused around finding sustainable solutions to issues such as poverty, low levels of education, food insecurity, and unemployment.

CONTRIBUTE TO THE UN'S GLOBAL GOALS

DID YOU KNOW?

- ✓ The lion, the cheetah and the wildebeest are three of the five fastest animals in the world, and they all live in South Africa.
- ✓ There are eight amazing world heritage sites in South Africa.
- ✓ Drakensberg forms part of the second most essential biomes or ecosystems in Southern Africa - grasslands
