

# Borneo: Project Descriptions

## COMMUNITY PROJECT:

You will be assisting with increasing the access to basic facilities for the support welfare and growth in the indigenous areas. Such as in the Dusun communities as they are very remote and don't have access to things like running toilets.

Work can include helping construct toilets, community halls, development of a drainage system.

## ENVIRONMENTAL PROJECT:

50% of Malaysian Mangroves are found in Sabah, however of many are being replaced by palm oil plantations, you will be working on combating this.

You will be help building a community Jetty for access to the Mangroves, working on replanting and rehabilitating the mangroves alongside the local experts and communities within these mangroves.
